American Journal of Physiology:
Endocrinology and Metabolism

No. 1. JULY 1990

EDITORIAL REVIEW

Peptide transport systems for opiates across the blood-brain barrier
W. A. Banks and A. J. Kastin E1

Defective thermoregulatory thermogenesis does not cause onset of obesity in Zucker rats
R. Kaul, G. Heldmaier, and I. Schmidt E11

Splanchnic control of vasopressin secretion in conscious rats
S. Choi-Kwon, R. McCarty, and A. J. Baertschi E19

Changes in insulin receptor kinase with aging in rat skeletal muscle and liver
S. Kono, H. Kuzuya, M. Okamoto, H. Nishimura, A. Kosaki, T. Kakehi, M. Okamoto, G. Inoue, I. Maeda, and H. Imura E27

Quantitative role of splanchnic region in leucine metabolism: L-[1-^{13}C,^{15}N]leucine and substrate balance studies
Y.-M. Yu, D. A. Wagner, E. E. Tredget, J. A. Walaszewski, J. F. Burke, and V. R. Young E36

Altered blood flow regulation in autotransplanted pancreatic islets of rats
L. Jansson and S. Sandler E52

Pregnancy suppresses G protein coupling to phosphoinositide hydrolysis in guinea pig myometrium
S. J. Arkinstall and C. T. Jones E57

Influence of age and endurance training on metabolic rate and hormones in healthy men
E. T. Poehlman, T. L. McAuliffe, D. R. Van Houten, and E. Danforth, Jr. E66

Activation of PKC inhibits NaF-induced inositol phospholipid turnover in rat insulinoma cells
T. Yamatani, A. Yamaguchi, A. Nakamura, T. Morishita, S. Kadowaki, T. Fujita, and T. Chiba E73

Selective reduction of α_2-adrenergic responsiveness in hamster adipose tissue during prolonged starvation
C. Carpéné, J. Galitzky, J.-S. Saulnier-Blache, and M. Lafontan E80

Activation of insulin-like growth factor gene expression during work-induced skeletal muscle growth
D. L. DeVol, P. Rotwein, J. L. Sadow, J. Novakofski, and P. J. Bechtel E89

Effects of insulin on whole body and forearm leucine and KIC metabolism in type 1 diabetes
P. Tessari, G. Biolo, S. Inchiostro, L. Saccà, R. Nosadini, M. T. Boscarato, R. Trevisan, S. V. De Kreutzenberg, and A. Tiengo E96

Early establishment of cerebral dysfunction after portacaval shunting
A. M. Mans, M. R. DeJoseph, D. W. Davis, J. R. Viña, and R. A. Hawkins E104

Effect of a high-fat-sucrose diet on in vivo insulin receptor kinase activation
J. J. Boyd, I. Contreras, M. Kern, E. B. Tapscott, D. L. Downes, W. R. Frisell, and G. L. Dohm E111

Ketone bodies and islet function: ^{45}Ca handling, insulin synthesis, and release
W. J. Malaisse, P. Lebrun, B. Yaylali, J. Camara, I. Valverde, and A. Sener E117

Ketone bodies and islet function: ^{86}Rb handling and metabolic data
W. J. Malaisse, P. Lebrun, J. Rasschaert, F. Blachier, T. Yilmaz, and A. Sener E123

Distinction of NPY receptors in vitro and in vivo. I. NPY-(18—36) discriminates NPY receptor subtypes in vitro
M. C. Michel, E. Schlicker, K. Fink, J. H. Boublik, M. Göthert, R. N. Willette, R. N. Daly, J. P. Hieble, J. E. Rivier, and H. J. Motulsky E131

No. 2. AUGUST 1990

Platelet catecholamine contents are cumulative indexes of sympathoadrenal activity
K. G. Chamberlain, R. G. Pestell, and J. D. Best E141

Glutamine transport and metabolism in denervated rat skeletal muscle
H. S. Hundal, P. Babij, P. W. Watt, M. R. Ward, and M. J. Rennie E148

Insulin secretory capacity in endurance-trained and untrained young men
D. S. King, M. A. Staten, W. M. Kohrt, G. P. Dalsky, D. Elahi, and J. O. Holloszy E155

Lighting conditions affect serum and pituitary TSH in male rats
M.-L. Laakso, T. Porkka-Heiskanen, D. Stenberg, G. Johansson, and P. T. Männistö E162

Ammonia metabolism during intense dynamic exercise and recovery in humans
T. E. Graham, J. Bangsbo, P. D. Gollnick, C. Juel, and B. Saltin E170

Diet affects the mechanisms by which TNF stimulates hepatic triglyceride production
K. R. Feingold, S. Adi, I. Staprans, A. H. Moser, R. Neese, J. A. Verdier, W. Doerrler, and C. Grunfeld E177

Euglycemic hyperinsulinemia augments amino acid uptake by human leg tissues during hyperaminoacidemia
W. M. Bennet, A. A. Connacher, C. M. Scrimgeour, R. T. Jung, and M. J. Rennie E185

Hepatic nerves are not essential to the increase in hepatic glucose production during muscular work
D. H. Wasserman, P. E. Williams, D. B. Lacy, D. Bracy, and A. D. Cherrington E195

ATP production rate in mitochondria isolated from microsamples of human muscle
R. Wibom and E. Hultman E204

Effects of norepinephrine infusion on in vivo insulin sensitivity and responsiveness
J. R. Lupien, M. F. Hirshman, and E. S. Horton E210

Pancreatic β-cell somatostatin receptors
K. Thermos, M. D. Meglasson, J. Nelson, K. M. Lounsbury, and T. Reisine E216

Role of glucagon in disposal of an amino acid load
G. Boden, L. Tappy, F. Jadali, R. D. Hoeldtke, I. Rezvani, and O. E. Owen E225

Effect of age on body composition and resting metabolic rate
N. K. Fukagawa, L. G. Bandini, and J. B. Young E233

Bradykinin attenuates glucagon-induced leucine oxidation in humans
W. H. Hartl, H. Miyoshi, F. Jahoor, S. Klein, D. Elahi, and R. R. Wolfe E239

Brain natriuretic peptide binding sites in rats: in vitro autoradiographic study
E. M. Konrad, G. Thibault, S. Pelletier, J. Genest, and M. Cantin E246

Transforming growth factor alpha in developing rats
P. I. Brown, R. Lam, J. Lakshmanan, and D. A. Fisher E256

Effects of desipramine on norepinephrine clearance in congestive heart failure
B. Clemson, R. G. Baily, D. Davis, and R. Zelis E261

Time course of exercise-induced decline in malonyl-CoA in different muscle types
W. W. Winder, J. Arogyasami, I. M. Elayan, and D. Cartmill E266

Rapid nongenomic inhibiton of renal 25-hydroxyvitamin D_3 1-hydroxylase by 1,25-dihydroxyvitamin D_3
I. M. Dick, R. Retallack, and R. L. Prince E272

Na^+-K^+ pump in rat muscle: effects of hypophysectomy, growth hormone, and thyroid hormone
M. E. Everts, I. Dørup, A. Flyvbjerg, S. M. Marshall, and K. D. Jørgensen E278

Characteristics of glutamine transport in sarcolemmal vesicles from rat skeletal muscle
A. Ahmed, P. M. Taylor, and M. J. Rennie E284

MODELING METHODOLOGY FORUM

Distribution and kinetics of glucose in rats analyzed by noncompartmental and compartmental analysis
M. Raman, J. Radziuk, and G. Hetenyi, Jr. E292

No. 3. SEPTEMBER 1990

Thermogenic effect of thyroid hormones: interactions with epinephrine and insulin
V. Piolino, K. J. Acheson, M. J. Müller, N. Jeanprêtre, A. G. Burger, and E. Jéquier E305

Mechanism of atrial natriuretic factor-induced inhibition of rat mesangial cell mitogenesis
R. G. Appel E312

$1,25(OH)_2D$ response to combined zinc and phosphorus depletion in rats
P. L. Kimmel, D. W. Watkins, E. Slatopolsky, and C. B. Langman E319

Systemic pH modifies ketone body production rates and lipolysis in humans
V. L. Hood, U. Keller, M. W. Haymond, and D. Kŭry E327

Quantitative comparison of pathways of hepatic glycogen repletion in fed and fasted humans
G. I. Shulman, G. Cline, W. C. Schumann, V. Chandramouli, K. Kumaran, and B. R. Landau E335

Effect of insulin-induced hypoglycemia on protein metabolism in vivo
H. Hourani, P. Williams, J. A. Morris, M. E. May, and N. N. Abumrad E342

Operating behavior of dual or multiple endocrine pulse generators
J. D. Veldhuis, A. E. Lassiter, and M. L. Johnson E351

Adrenalectomy increases brown adipose tissue metabolism in *ob/ob* mice housed at 35°C
H.-K. Kim and D. R. Romsos E362

Regulation of plasma calcium and phosphate in calcitonin-infused rats
S. Lausson, P. Tracqui, L. Toubiana, G. Milhaud, A. M. Perault-Staub, and J. F. Staub E370

Kinetics and specificity of insulin uptake from plasma into cerebrospinal fluid
M. W. Schwartz, A. Sipols, S. E. Kahn, D. F. Lattemann, G. J. Taborsky, Jr., R. N. Bergman, S. C. Woods, and D. Porte, Jr. E378

Entrainment of circadian phase in developing gray short-tailed opossums: mother vs. environment
S. A. Rivkees and S. M. Reppert E384

Glucose metabolism and recycling by hepatocytes of *OB/OB* and *ob/ob* mice
J. T. Lahtela, P. A. Wals, and J. Katz E389

Measurement of lactate formation from glucose using [6-^{3}H]- and 6-^{14}C-glucose in humans
A. Virkamäki, I. Puhakainen, N. Nurjhan, J. E. Gerich, and H. Yki-Järvinen E397

Adrenal steroid receptor binding in spleen and thymus after stress or dexamethasone
A. H. Miller, R. L. Spencer, M. Stein, and B. S. McEwen E405

Insulin stimulates mitochondrial protein synthesis and respiration in isolated perfused rat heart
E. E. McKee and B. L. Grier E413

Age-related differences in norepinephrine kinetics: effect of posture and sodium-restricted diet
M. A. Supiano, O. A. Linares, M. J. Smith, and J. B. Halter E422

Effects of naloxone on renin and pressor responses to acute renal hypotension in rats
C. J. Weaver and M. D. Johnson E432

Renal arginine synthesis: studies in vitro and in vivo
S. N. Dhanakoti, J. T. Brosnan, G. R. Herzberg, and M. E. Brosnan E437

Effect of bathocuproine disulfonate, a copper chelator, on cyst(e)ine metabolism by freshly isolated rat hepatocytes
R. M. Coloso, M. R. Drake, and M. H. Stipanuk E443

A stimulatory effect of FFA on glycolysis unmasked in cells with impaired oxidative capacity
W. G. Blackard, J. N. Clore, and L. P. Powers E451

RAPID COMMUNICATIONS

Effects of amylin on glucose metabolism and glycogenolysis in vivo and in vitro
D. A. Young, R. O. Deems, R. W. Deacon, R. H. McIntosh, and J. E. Foley E457

No. 4. OCTOBER 1990

Mechanism of clearance of dipeptides by perfused hindquarters: sarcolemmal hydrolysis of peptides
M. Raghunath, E. L. Morse, and S. A. Adibi E463

Effect of exercise and recovery on muscle protein synthesis in human subjects
F. Carraro, C. A. Stuart, W. H. Hartl, J. Rosenblatt, and R. R. Wolfe E470

Effect of starvation on human muscle protein metabolism and its response to insulin
D. A. Fryburg, E. J. Barrett, R. J. Louard, and R. A. Gelfand E477

Quantitative partition of threonine oxidation in pigs: effect of dietary threonine
O. Ballevre, A. Cadenhead, A. G. Calder, W. D. Rees, G. E. Lobley, M. F. Fuller, and P. J. Garlick E483

Fetoplacental deamination and decarboxylation of leucine
G. L. Loy, A. N. Quick, Jr., W. W. Hay, Jr., G. Meschia, F. C. Battaglia, and P. V. Fennessey E492

Altered hepatic mitochondrial fatty acid oxidation and ketogenesis in endotoxic rats
N. Takeyama, Y. Itoh, Y. Kitazawa, and T. Tanaka E498

Effect of hypoinsulinemia and hyperglycemia on fetal glucose utilization
J. E. DiGiacomo and W. W. Hay, Jr. E506

Formation of gluconeogenic precursors in rat skeletal muscle during fasted-refed transition
M. N. Goodman, R. Dietrich, and P. Luu E513

Insulin binding to individual rat skeletal muscles
D. J. Koerker, I. R. Sweet, and D. G. Baskin E517

A fluorescent analogue of hydrin 1: a new probe for vasotocin receptors
P. Eggena, C.-L. Ma, M. Lu, and A. Buku E524

Inhibition of intermediary metabolism by amiodarone in dog thyroid slices
D. Pasquali, F.-Y. Tseng, C. S. S. Rani, and J. B. Field E529

Thermogenesis following meal feeding, isoproterenol, and cold in rats with LH lesions
S. W. Corbett, B. Roland, and R. E. Keesey E534

Lack of effect of hyperglycemia on lipolysis in humans
M. Caruso, G. D. Divertie, M. D. Jensen, and J. M. Miles E542

Novel effects of insulin secretagogues on capacitation of insulin release and survival of cultured pancreatic islets
M. J. MacDonald, L. A. Fahien, D. I. McKenzie, and S. M. Moran E548

Effects of testosterone on muscle insulin sensitivity and morphology in female rats
A. Holmäng, J. Svedberg, E. Jennische, and P. Björntorp E555

Acute effects of insulin-like growth factor I and insulin on glucose metabolism in vivo
R. T. Moxley III, P. Arner, A. Moss, A. Skottner, M. Fox, D. James, and J. N. Livingston E561

Maternal diet and insulin secretion in islets of lactating, nonlactating, and young rats
C. R. Bliss, D. E. Wiedenkeller, and G. W. G. Sharp E568

Total energy expenditure in burned children using the doubly labeled water technique
M. I. Goran, E. J. Peters, D. N. Herndon, and R. R. Wolfe E576

Comparison of in vitro and in vivo ^{44}Ca labeling of bone by scanning ion microprobe
D. A. Bushinsky, J. M. Chabala, and R. Levi-Setti E586

RAPID COMMUNICATIONS

Glucose transporter protein content and glucose transport capacity in rat skeletal muscles
E. J. Henriksen, R. E. Bourey, K. J. Rodnick, L. Koranyi, M. A. Permutt, and J. O. Holloszy E593

LETTERS TO THE EDITOR

Oxygen consumption of human adipose tissue
L. Sjöström E599

No. 5. NOVEMBER 1990

INVITED REVIEW

Glucose homeostasis and hypothalamic-pituitary-adrenocortical axis during development in rats
E. P. Widmaier E601

Fluxes and membrane transport of amino acids in rat liver under different protein diets
P. Fafournoux, C. Remesy, and C. Demigne E614

Dexamethasone increases glucose cycling, but not glucose production, in healthy subjects
A. Wajngot, A. Khan, A. Giacca, M. Vranic, and S. Efendic E626

Nitrogen sparing by 2-ketoisocaproate in parenterally fed rats
M. Yagi, D. E. Matthews, and M. Walser E633

Effect of two methods of hand heating on body temperature, forearm blood flow, and deep venous oxygen saturation
I. W. Gallen and I. A. Macdonald E639

Vasoactive peptides and phenylephrine actions in isolated teleost hepatocytes
